Business Offshore 2011

December 8th and 9th 2011 Hotel Hafen Hamburg

At the first Business Offshore conference 2011 in Hamburg, top executives of the world's foremost offshore and energy companies will give an overview of current and future global activities in the three major offshore segments oil & gas, ocean mining and renewable energies. Developments in the offshore sequestration of CO₂ and work on new storage technologies particularly for renewable energies will also be presented.

In particular the special features of the individual market segments and projects will be presented in detail and the resulting requirements defined. The participants are thus to be given a unique insider knowledge of potential business areas and introduced to contact persons, thereby facilitating market access.

Meet the TOP-MANAGERS of the OFFSHORE INDUSTRY and find out what BUSINESS opportunities are best for you!

Dr. Silke Sadowski

(Editor in Chief Schiff&Hafen | Ship&Offshore)
